Board for Research Ethics at Åbo Akademi University

Statement

Project: EIT improving the quality of investigative interviews via simulated interview software
Principal investigator: Francesco Pompedda
Location: Faculty of Arts Psychology and Theology

The Research Ethics Board has considered Francesco Pompedda’s application for ethical approval for the above-mentioned research project.

The Research Ethics Board notes that the project description is very clear in terms of project implementation and over all management of collected empirical material. The form for informed consent is both relevant and informative. The information about video recording and the use of the material is also informative enough.

The research project can be thus be implemented as planned.

Åbo 20th of June 2016

The Board for Research Ethics at Åbo Akademi University

Mikael Lindfelt
Chair of the board

Anja Hongelin
Secretary of the board
