

# The 3<sup>rd</sup> International Conference October, 1–3 2019 in Vaasa **Sustainable Caring for Health and Wellbeing**

**Sustainable caring for health and wellbeing**, is a contemporary topic. In a changing world, with a growing older population, new challenges of illness, and limited resources, it is important to develop and apply caring that is sustainable for peoples' health and wellbeing. This intention can permeate different areas in health care and health education.

## Areas in focus

- Person centered and family centered care
- Health technology and dignity
- Leadership in healthcare
- Education and learning

**ABSTRACT DEADLINE APRIL 15<sup>th</sup>!**

Welcome to take part in the conference and contribute with your experiences and knowledge or to learn more about this topic.
