Welcome to the pages of Career Services (Arbetsforum) at Åbo Akademi University. Our mission is to improve ÅAU students' and graduates' prospects on the labor market by increasing the interaction between university studies and working life. We offer, among other things, career guidance, CV clinics, support in job searching and information on internships both in Finland and abroad. We do career placement surveys and annually compile reports on the ÅA alumni's placement in the labor market.

We also collaborate with employers so that students would gain experience and knowledge about working life and to have the opportunity to make contacts with potential employers already during their studies.

We offer students:

- [career counselling](#)
- [partially funded internship voucher](#)
- [database for vacant positions](#)
- career coaching programs
- info about job seeking
- feedback on CV's (CV-clinics)
- info about the labor market
