

• **Hi,**

I am **Dipak Raj Dhakal**, one of the tutors at Abo Academi University, Turku, Finland. I am very glad to support you all and share my ideas and experience with you as a tutor during my tenure here at the university. I study a master's in social exclusion. My educational background is social science, specialising in social work. I have multilingual communication skills such as English, Norwegian, Nepali, and Hindi.

In my spare time, I like hanging out with friends and different people, visiting diverse cultures and nature, conducting social research, and making short documentaries. Though I was raised in Asian culture (Nepal), I have been living in Europe since a decade ago, particularly in Scandinavian countries. Therefore, I am looking forward to welcoming you all here in Finland and sharing my experience and information regarding education, universities, culture, people, and nature in Finland with you. Please feel free to contact me at:
