What kind of account would you like to open today?

You can add another account later on, too.

Personal account

Send, spend, and receive around the world for less.

Business account

Do business or freelance work internationally.

You must use Wise in line with our [Acceptable Use Policy](#). You cannot use a personal account for business purposes.

Select personal account

The screenshot shows the Wise account setup interface. At the top left is the Wise logo. A progress bar at the top indicates the current step is 'Country', with other steps being 'Email', 'Account type', '2FA', and 'Password'. The main heading is 'Where do you live most of the time?'. Below this is a subtext: 'By law, we may need to ask for proof of your address.' A dropdown menu shows 'Finland' selected. A green 'Continue' button is positioned below the dropdown.

Choose the country where you live most of the time.

The screenshot shows the next step in the Wise account setup: 'Verify your phone number with a code'. The progress bar at the top now highlights '2FA'. The subtext reads: 'It helps us keep your account secure. [Learn more](#)'. There are two input fields: 'Country code' with '+358' selected in a dropdown, and 'Phone number' with a single vertical line in the input box. A grey 'Send verification code' button is located below the phone number field.

Enter your phone number with the correct country code. This is where the verification code will be sent.
