

HEY!

Hi and welcome, everyone!

My name is Eleena, and I'm one of your tutors this semester. I'm originally from India, but currently living in Turku, where I'm pursuing my Master's in Sustainable Chemical and Process Engineering at Åbo Akademi.

Outside of my studies, I love reading fantasy fiction, spending time with my Kindle, and enjoying coffee.

I'm really looking forward to getting to know all of you—please feel free to reach out anytime!
