

Sana Akhter

(International Master Students Tutor)

Hi, I am Sana Akhter, a passionate student from Pakistan pursuing master in International Law and Human Rights at Åbo Akademi University. My journey in Finland has been amazing so far from the cozy winter nights in Turku to the vibrant, sun-filled summers. As someone who has experienced the transition to life in Finland, I'm here to help new students feel at home. Whether it's exploring the city's charming blend of old and modern architecture or sharing tips on navigating student life, I'd love to connect.

My favorite thing is walking along the Aura River -it always lifts my mood. A warm welcome to all incoming Master's students. I'm looking forward to meeting you and sharing this incredible experience together. Wishing you the best of luck. Let's make unforgettable memories in Turku!
