## Erasmus Student Network

Founded in 1989

One of the biggest student associations in Europe and the world.

We are present in more than 1000 Higher Education Institutions from 45 countries.

3 levels → local, national, and international.

The network is constantly developing and expanding. We have around 15,000 active members that are in many sections supported by so called buddies mainly taking care of international students. Thus, ESN involves around 40,000 young people offering its services to around 350,000 international students every year.
