What I Love About This Programme

The blend of physics, medicine, and technology is endlessly fascinating – every course opens a new window into how imaging shapes modern healthcare and research.

The Study Environment

Warm, collaborative, and international. The labs and lecture halls at Åbo Akademi are welcoming spaces where curiosity is always encouraged.

Best Part of Studying Here

Turku is a vibrant student city – compact, safe, and full of culture. You will quickly feel at home, both on campus and in the city.

You belong here. Whether this is your first time in Finland or you are already familiar with Nordic student life, this programme is designed to support and challenge you – and we are here every step of the way. Welcome aboard! 🌟
