

Hello! My name is Idowu from Nigeria. I am one of the student tutors for languages, precisely French. I absolutely enjoy everything here most importantly, the amiable and international study environment, where students and teachers are very supportive. During your first weeks, you will become acquainted with places like Arken, ASA, and the university libraries, which are great spaces for studying and meeting others.

Definitely looking forward to supporting you as you begin your studies. Welcome to Åbo Akademi!

Hello there! I'm Alexander, a second-year master's student in Russian language in literature. I've been studying Russian literally from the day I was born (I'm from Saint Petersburg :), and I'm here to help make your studies as smooth and engaging as possible!

As a tutor I'll be there whenever you need any assistance, be it student life or everyday questions about living in Åbo and in Suomi in general! Can't wait to meet you :)

Добро пожаловать и до встречи!
